

Product Sheet

Skin Microbiome Genomic Mix (ATCC® MSA-1005™)

Please read this FIRST

Storage Temp.
-20°C or colder

Biosafety Level
1

Intended Use

Purchase of this product will include limited use access to the One Codex platform for metagenomic analysis of ATCC microbiome products. By purchasing this product, you consent and agree to allow ATCC to securely transfer sales and end users' data related to this product to One Codex. Provision of One Codex access, storage, management of sequencing data, and the interpretation and accuracy of analytical results provided by One Codex are the responsibility of One Codex and not ATCC. An end-user's email address is required at the point of sale to receive the One Codex coupon code for metagenomic analysis.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Skin Microbiome Genomic Mix (ATCC® MSA-1005™)

Description

ATCC® Microbiome Standards are mock microbial communities that mimic mixed metagenomic samples. This product comprises an even mixture of genomic DNA prepared from fully sequenced, characterized, and authenticated bacterial species observed in normal and atypical skin microbial communities. Each order for this product is provided with access to run 20 analyses on One Codex, the leading bioinformatics platform for microbial genomics and metagenomics.

Specification Range: 1.2×10^8 genome copies/vial \pm 1 log*

*Genomic DNA concentrations indicate ATCC manufacturing specifications and are provided as a reference only

Components

- 16.7% *Acinetobacter johnsonii* (ATCC 17909D-5)
- 16.7% *Corynebacterium striatum* (ATCC 6940D-5)
- 16.7% *Micrococcus luteus* (ATCC 4698D-5)
- 16.7% *Cutibacterium acnes* (ATCC 11828D-5)
- 16.7% *Staphylococcus epidermidis* (ATCC 12228D-5)
- 16.7% *Streptococcus mitis* (ATCC 49456D-5)

Propagation

Aliquoting is highly recommended to avoid multiple freeze-thaws, which can damage the DNA.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at www.atcc.org

Additional information on this culture is available on the ATCC web site at www.atcc.org.
