

pRSVPAP

77130™

Description

Organism: *Homo sapiens*, human

Clone type: Vector

Host: *Escherichia coli* DH5alpha

Storage Conditions

Product format: Freeze-dried

Intended Use

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use.

BSL 1

ATCC determines the biosafety level of a material based on our risk assessment as guided by the current edition of *Biosafety in Microbiological and Biomedical Laboratories (BMBL)*, U.S. Department of Health and Human Services. It is your responsibility to understand the hazards associated with the material per your organization's policies and procedures as well as any other applicable regulations as enforced by your local or national agencies.

Certificate of Analysis

For batch-specific test results, refer to the applicable certificate of analysis that can be found at www.atcc.org.

Insert Information

Insert size (kb): 5

Type of DNA: cDNA

Insert source: placenta

Insert tissue: placenta

Insert information:

Genomic copy number: unique

Insert 5' end: HindIII

Insert 3' end: XbaI

Genome: human

Chromosome: 2

2 q37.1

Target gene: alkaline phosphataseplacental (Regan isozyme)

Gene name: alkaline phosphatase, placental (Regan isozyme)

Gene product: alkaline phosphatase, placental (Regan isozyme) [ALPP]

Gene symbol: ALPP

Alleles: A1, A2, B1, B2

Contains complete coding sequence: Unknown

Vector Information

Construct size (kb): 10.10000038146973

Intact vector size: 5.100

Vector name: pRc/RSV

Type of vector: phagemid

Construction: pUC19, RSV, bovine growth hormone; pRc/RSV, pSV2Apap

Host range: vertebrate cells

Vector end: HindIII; XbaI

Cloning sites: HindIII; SpeI; BstXI; NotI; XbaI

Enhancer: RSV LTR

Markers: neoR; G418R; ampR

Polylinker sites: HindIII; KpnI; SacI; BamHI; SpeI; XmaIII; BstXI; EcoRI; PstI; EcoRV; BstXI; NotI; XhoI; SphI; NsiI; XbaI

Promoters: RSV LTR

Replicon: pMB1; M13

Terminator: bGH polyadenylation

Growth Conditions

Medium:

ATCC Medium 1227: LB Medium (ATCC medium 1065) with 50 mcg/ml ampicillin

Temperature: 37°C

Notes

Restriction digests of the clone give the following sizes (kb): EcoRI--6.1, 4.0; HindIII--10.1; BglII--10.1; KpnI--5.0, 2.8, 2.3; XbaI--10.1.

- ATCC staff

Transient expression experiments should be performed to examine the RSV promoter efficiency in different cell lines. The RSV promoter can be replaced by

excising with a BglII/HindIII digest.

- personal communication

Shuttle reporter plasmid permitting visual detection of activity by histochemical staining.

- BioTechniques 11: 344-351, 1991

Presence of alkaline phosphatase activity is used to follow cell lineage in culture or in situ.

- BioTechniques 11: 344-351, 1991

pRSVPAP

77130

pRSVlacZII (ATCC 77129), pRSVPAP (ATCC 77130) and pRSVADH (ATCC 77131) provide distinct color-staining reactions (aqua blue, red, and blue-black respectively) to permit simultaneous analysis of multiple lineages.

- BioTechniques 11: 344-351, 1991

The order of the major features in pRc/RSV is: RSV LTR - MCS - bovine growth hormone polyadenylation signal - M13 ori - SV40 early promoter - neoR - SV40 polyadenylation signal - pMB1 ori - bla.

- BioTechniques 11: 344-351, 1991

Constructed by cloning the HindIII/XbaI fragment from pSVApap into pRc/RSV.

- BioTechniques 11: 344-351, 1991

More information may be available from ATCC

Warranty

The product is provided 'AS IS' and the viability of ATCC[®] products is warranted for 30

days from the date of shipment, provided that the customer has stored and handled the product according to the information included on the product information sheet, website, and Certificate of Analysis. For living cultures, ATCC lists the media formulation and reagents that have been found to be effective for the product. While other unspecified media and reagents may also produce satisfactory results, a change in the ATCC and/or depositor-recommended protocols may affect the recovery, growth, and/or function of the product. If an alternative medium formulation or reagent is used, the ATCC warranty for viability is no longer valid. Except as expressly set forth herein, no other warranties of any kind are provided, express or implied, including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, manufacture according to cGMP standards, typicality, safety, accuracy, and/or noninfringement.

Disclaimers

This product is intended for laboratory research use only. It is not intended for any animal or human therapeutic use, any human or animal consumption, or any diagnostic use. Any proposed commercial use is prohibited without a license from ATCC.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate or complete and the customer bears the sole responsibility of confirming the accuracy and completeness of any such information.

This product is sent on the condition that the customer is responsible for and assumes all risk and responsibility in connection with the receipt, handling, storage, disposal, and use of the ATCC product including without limitation taking all appropriate safety and handling precautions to minimize health or environmental risk. As a condition of receiving the material, the customer agrees that any activity undertaken with the ATCC product and any progeny or modifications will be conducted in compliance with all applicable laws, regulations, and guidelines. This product is provided 'AS IS' with no representations or warranties whatsoever except

as expressly set forth herein and in no event shall ATCC, its parents, subsidiaries, directors, officers, agents, employees, assigns, successors, and affiliates be liable for indirect, special, incidental, or consequential damages of any kind in connection with or arising out of the customer's use of the product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.

Please see the material transfer agreement (MTA) for further details regarding the use of this product. The MTA is available at www.atcc.org.
