Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *human papilloma virus type 56* (ATCC® 40379™)

Shipping Information

200 ng dried purified plasmid DNA

Description

The insert in this clone overlaps HPV 56 clone 2A (ATCC 40341) by 3.1 kb. The insert also contains a 2.8 kb fragment of non-HPV DNA derived from the vector pT713. The viral sequences in the insert are the 3.1 kb BamHI/EcoRI fragment from position 0 to 3.1. These sequences encode part of E1, E2, E4, E5a, E5b and part of L2.

-U.S. Patent No. 4,908, 306 dated Mar 13, 1990

Designation: HPV 56 clone 2B purified plasmid DNA

Insert Information

Insert size (kb): 5.9

Gene: human papilloma virus type 56

DNA: genomic DNA

Source: human vulvar condyloma

Insert ends: BamHI

Vector Information

Total size of construct (kb): 8.7

Marker: ampR

Vector: pT713

Vector type: plasmid

Vector size (kb): 2.8

Promoter: T7(phi10)

Markers: ampR

Vector ends: BamHI

Propagation

Rehydrate plasmid with water or TE buffer. Plasmid can be transformed into a suitable *Escherichia coli* host using standard protocols and then grown on LB + 50 µg/mL of ampicillin agar. Incubate cultures at 37°C. Isolate DNA using standard plasmid preparation procedures.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While
