Description

Designation: S17-1

Deposited Name: *Escherichia coli* (Migula) Castellani and Chalmers

Genotype: recA pro hsdR RP4-2-Tc::Mu-Km::Tn7 integrated into the chromosome

Product Description: This is a recommended mobilization host for pARO180, pARO190, pARO181, and pARO191 (ATCC 77123-77126, respectively) because it contains chromosomally integrated tra genes.

Depositor: Donna Parke, Department of Biology, Yale University, New Haven, CT

Genotype: recA pro hsdR, RP4-Tc::Mu-Km::Tn7 integrated into the chromosome

Markers: tmpR, spcR, strR

Propagation

Medium

ATCC® Medium 2928: M9 + 40 ug/ml Proline + 10 ug/ml Trimetropin

Growth Conditions

Temperature: 37°C

Atmosphere: Aerobic

Propagation Procedure

1. Open thawed vial according to enclosed instructions or visit www.atcc.org for instructions.
2. Aseptically transfer the entire contents to a 5-6 mL tube of 5 mL LB + trimethoprim (10 µg/mL) media. A loopful of culture can also be streaked on an LB + trimethoprim agar plate.
3. Incubate at 37°C.

Notes

The properties of streptomycin, trimethoprim, and spectinomycin resistance were verified. - ATCC staff Growth can be seen on ATCC® Medium 1065: LB Agar/Broth, Miller.

Additional information on this culture is available on the ATCC® web site at www.atcc.org.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from
