

Product Sheet

Dehalococcoides sp. (ATCC® BAA-2100™)

Please read this FIRST

Storage Temp.
Frozen: -80°C or colder
Freeze-Dried: 2°C to 8°C
Live Culture: See Propagation Section

Biosafety Level
1

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *Dehalococcoides sp.* (ATCC® BAA-2100™)

Description

Designation: BAV1

Deposited Name: *Dehalococcoides sp.*

Propagation

Medium

ATCC® Medium 2760: MOPS Buffered Medium for *Dehalococcoides sp.*

Growth Conditions

Temperature: 24°C to 30°C

Atmosphere: Anaerobic gas mixture, 90% N₂-10% H₂ or 80% N₂-10% CO₂-10% H₂

Propagation Procedure

1. Twenty four hours prior to inoculation place all components in the anaerobic chamber.
2. Place the frozen vial in the anaerobic chamber and allow it to thaw. Using an anaerobic syringe transfer the entire contents of the vial into a single serum bottle.
3. Incubate the serum bottle at 30°C for 2-4 weeks.

Notes

This culture is a strict anaerobe and all efforts should be made to maintain anaerobic conditions. It is strongly suggested that all transfers be performed in an anaerobic chamber (bug box). Growth can best be monitored using real time PCR; see attached protocol. Growth can also be monitored using a fluorescent DNA stain such as LIVE/DEAD BacLight or SYBR green.

This strain should be provided with a chloronated electron acceptor every 4-6 weeks and transferred every 3 months.

Additional information on this culture is available on the ATCC® web site at www.atcc.org.

References and other information relating to this product are available online at www.atcc.org.

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of such materials.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this

product. The MTA is also available on our Web site at www.atcc.org
