## Description

**Strain:** SB  
**Classification:** Herpesviridae, Mardivirus  
**Original Source:**  
chicken (S-strain) peripheral blood lymphocytes  
**Depositor:** BW Calnek

## Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

## Propagation

**Propagation Host:**  
chicken embryo fibroblasts  
**Effect on Host:**  
CPE, cell rounding and syncytia formation

## Growth Conditions

**Temperature:** 37°C  
**Incubation:** Incubate infected culture for 7 days at 37°C in a humidified 5% CO<sub>2</sub> atmosphere, until CPE are well advance throughout.

## Comments

Deposited as Mareks disease virus. Infected CEF cell suspension with 10% DMSO + Penicillin/Streptomycin + Fungizone®. Item is considered nononcogenic. Will protect against Mareks disease virus and non-virus producing JM strain tumor transplant.  
Nononcogenic, cell associated. Will protect against MDV and non-virus producing JM tumor transplant.

## References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

## Key Abbreviations

CEF, chicken embryo fibroblasts  
DMSO, dimethyl sulfoxide  
Pen, penicillin  
Strep, streptomycin  
TC, tissue culture  
USDA, United States Department of Agriculture

## Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

## ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

## Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.
